

Medicaid and CHIP Enrollment by State and Congressional District

March 2025

Introduction:

Medicaid is essential to the health and well being of the nearly 80 million people in this country who rely on it for their health care. In every community, city, state, and Congressional District, Medicaid is a lifeline. Medicaid provides essential care for people with disabilities, older adults, pregnant people, children, and families struggling to make ends meet. For millions of people, Medicaid makes health care affordable and makes it possible to get treatment for illnesses, stay healthy, and participate in the workforce.

Included in the nearly 80 million people who rely on Medicaid are <u>7.8 million people who</u> receive aging and disability care in their homes through Medicaid. Because private insurance and Medicare do not cover the majority of long-term care, Medicaid is essential to people with disabilities and older adults who want to receive care in their own homes and communities. Additionally, Medicaid helps defray costs for the <u>12.5 million people</u> jointly enrolled in Medicare and Medicaid.
